## **Step 2.** Sport Discussion Questions

The aim of the questions is to give the students speaking practice, primarily by stimulating discussions. This can be done in face-to-face classes or online.

**A** calls a number and **B** asks the corresponding version from his sheet then vice-versa.

There are two main ways of doing this.

- 1) Teacher – whole class. Student calls a number and teacher answers and vice-versa.

Teacher make notes and give corrections by answering with correct version, better without naming students, at end of lesson.

- 2) Student pairs with teacher joining in with different pairs. Change pairs after a few minutes.

Again teacher should note errors unobtrusively, not interrupting the flow. At the end of the session teacher can clarify errors without naming anyone.
